

## NWTC Student information sheet for beekeeping – hive inspections.

NWTC staff take preventative measures to help you avoid bee stings. However, the occasional bee sting during hive inspection may occasionally occur.

Please acknowledge:

- I am wearing appropriate clothing or understand risks of sting are increased if I don't.
- I have been instructed to not swat or squish bees, even if they sting
- I do not have allergic reactions to bee stings other than normal swelling at the sting site (or)
- I am carrying an epi-pen and have informed the instructor
- I do not have a medical condition that may be impacted by bee stings. If yes, I've informed the instructor.
- I understand that NWTC will call 911 if an allergic reaction to bee sting occurs and that an ambulance will be called.
